

FACT SHEET

Location

Widely regarded as Australia's Galapagos and home to abundant native wildlife and spectacular natural beauty, Kangaroo Island sits a mere 15km from the shores of mainland South Australia. As Australia's third largest, the Island is 155km long by 55km wide and covers some 4,500 sq km.

With 21 national and conservation parks, 267 species of birds, 891 species of native plants and a species of bee found nowhere else on the planet, Kangaroo Island has established itself as a premiere destination for nature lovers of all types.

Climate

A destination for all seasons, Kangaroo Island's climate is as dynamic as the scenery – from season to season the Island yields fresh perspectives. The Mediterranean climate produces warm summers and temperate winters. Daytime temperatures range from 25-35°C in summer to 14-18°C in winter.
