- Remarkable Rocks to Southern Ocean Lodge**
Encounter massive swells, towering cliffs and sweeping views along the coast all the way from the Remarkable Rocks to Cape Younghusband. Sanderson Bay is an ideal lunch stop, often shared with a pod of dolphins playing offshore. Turning inland, the vegetation changes dramatically from low coastal heath to tall, dense mallee, providing habitat for an array of wildlife. At the rock marker, step off the Wilderness Trail and return to the lodge along the spectacular Clifftop Walk.
Distance: 13km **Grade:** Experienced **Duration:** 4.5 hours
- Kelly Hill to Southern Ocean Lodge**
Explore the backcountry of Kelly Hill Conservation Park passing through eucalypt woodlands and grazing pastures favoured by the island's namesake then glassy lagoons and wetlands rich with birdlife. Emerge onto the white sands of Hanson Bay Beach where the aqua clear waters invite a swim. Continue past the Hanson Bay Cabins and along the rock ledge - the Southern Ocean frothing below - and when it comes into view, relish the reward of the lodge beyond.
Distance: 12km **Grade:** Moderate **Duration:** 4 hours
- Cape Younghusband Circuit**
Hike west along the Clifftop Walk until it meets the Boundary Trail, watching out for the osprey hovering above and fur seals frolicking below. Follow the Boundary Trail until it joins the Wilderness Trail and turn left. Experience the wonder of sheer limestone cliffs and admire the view from Cape Younghusband and the Remarkable Rocks in the distance. Back-track on the Wilderness Trail passing through dense mallee scrub. Turn right at the Bike Track and return to the lodge for some well-deserved refreshment.
Distance: 9km **Grade:** Moderate **Duration:** 3 hours
- Southern Ocean Lodge to Hanson Bay Loop***
Step out from the lodge and follow the Wilderness Trail through dense native forest, watching out for tammar wallabies, echidnas and birds. Cross the South West River using the boat tethered there and once ashore, climb over the sand dune to reveal the protected coves of Hanson Bay Beach - perfect for a cooling dip! Continue west past the Hanson Bay Cabins, following the coastal rock-shelf before the sandy home-stretch leads back to the lodge.
Distance: 7km **Grade:** Moderate **Duration:** 3 hours

Tips

*This trail offers the option to cross the South West River using a simply operated boat. It's important to check both river conditions and boat order prior to crossing. If the river appears to be fast flowing or the dinghy looks to be damaged, it is recommended the crossing is undertaken by foot at a wider and shallower section of the river further downstream. To reach this section of the river, follow Hanson Bay Road south to Hanson Bay.
