Location

Silky Oaks Lodge is set on 32 hectares (80 acres) of pristine rainforest above the gently flowing Mossman River, approximately 60 minutes' drive from Cairns and 20 minutes from Port Douglas, the gateway to the Great Barrier Reef. Also within easy reach are Mossman Gorge and the magnificent wilderness of Cape Tribulation.

Tropical North Queensland is a remarkable region where Australia's celebrated Daintree Rainforest meets the World Heritage-listed Great Barrier Reef. At an estimated 180 million years old, the Daintree Rainforest is regarded as the oldest in the world. It is one of the most complex ecosystems on earth, containing living examples of ancient plants unique to the area as well as hundreds of species of birds, animals and reptiles. The Daintree is home to the indigenous Kuku Yalanji people who have a deep connection with the land.

Climate

Part of the Wet Tropics of Queensland World Heritage Area, the Daintree climate is characterised by two distinct seasons: the dry season from April to November offers warm days and cool nights with low humidity ranging in temperature from 19–30°C; December to March is considered the green season as the days and nights are hotter with more frequent restorative showers and temperatures between 22–32°C.
